

ATHLETIC CAMPS FOR KIDS

Kids were happy to participate in six weeks of organized soccer and basketball training where they were able to play a game they love, practice new things, develop their skills, and learn from trained coaches. We hired three local soccer coaches and three young men who participated in our basketball coach training to organize these camps for the kids.

“

I want to say thank you Project Living Hope. Right now, I teach sports and Bible to children in my community. I work very hard to change my community because sport has the power to change Haiti. I am a Life Coach. I work for God. May God continue to protect you and give you strength.

Coach Robenson Beauger

“

This is the first job I've had like this. They pay you well. They give you food. It's a good job.

Fritz Jean Louis

EMPLOYMENT

Through this effort, 120 individuals from the community were able to earn a much needed day's wage by working on the PLH land. This pay helped them purchase food and other essentials for their families during this difficult time. Each work day, individuals came together in unity, worked hard to accomplish a task, and walked away with the means to provide for others and the knowledge that they had done honest work.

“

All the kids in Camp Marie are very clever, even if they are also talkative. They are very funny.

Rival Asseil

ENGLISH CAMP FOR KIDS

With school being canceled for several months, we saw a need to provide kids in the community with an opportunity to learn and participate in consistent activities. We hired three students from our English class to lead English kids camp for six weeks. Angelot, Rival, and Snyson did a great job providing the kids with a fun, positive learning environment. Together, the children learned about the alphabet, numbers, family, the calendar, and more.

“

We are happy for the great work you are doing in the community. We in the church are delighted to say thank you to everyone who is involved in this great project and for this beautiful help you gave us. We were very happy when we received this help, because the economic situation in the country is very difficult at this time. We did everything we needed to do, and each person was happy when they received the provisions. We ask that God bless you for the good work this project is doing in our area.

Pastor Jean Ernest Gracia

FOOD RELIEF

The nine churches of Camp Marie and 45 local farmers came together with PLH in a unified effort to help alleviate some of the food needs within the community. Your generous giving allowed for the churches to provide 1,100 families with food packages. The 45 farmers have planted beans, tomatoes, potatoes, okra, and other vegetables and will be giving 50% of the harvest back to the community through the oversight of the local churches.
